OPEYEMI GBADAMOSI

SENIOR QA AUTOMATION ENGINEER

gbadamosiopeyemi99@gmail.com | +353870042629 | https://www.linkedin.com/in/opeyemi-gbadamosi-qa/ | github.com/Gb-opeyemi | Dublin

- Senior QA Automation Engineer with 6+ years of experience designing, developing and maintaining scalable automation frameworks for web, mobile and API applications, improving software quality and accelerating release cycles
- Extensive experience with Cypress, Selenium WebDriver, Appium, and Postman, delivering automated web, mobile, and API testing solutions across multiple platforms
- Hands-on experience integrating automation frameworks and test suites into GitHub Actions and GitLab CI/CD pipelines to enable continuous testing and faster release cycles
- Extensive experience in end-to-end testing and testing diverse products across high-stakes industries, including Fintech, Crypto, Point of Sale (POS), and Delivery platforms
- Highly skilled in identifying software defects, performing root cause analysis and driving high-quality releases across cross-functional teams
- Experienced in collaborating with cross-functional teams to deliver high-quality software while mentoring QA engineers and promoting testing best practices

TECHNICAL SKILLS

- **Automation Frameworks:** Cypress, Selenium WebDriver, Appium, Cucumber BDD, TestNG
- **API Testing:** PostMan, Newman, REST API Testing
- **Performance Testing**: k6, JMeter
- **Programming Languages**: Java, JavaScript, HTML/CSS
- **CI/CD:** GitHub Actions, GitLab CI
- **Version Control:** Git, GitHub, Git Flow, Feature Branching
- **Test Management & Defect Tracking:** JIRA, BrowserStack, Test Planning, Test Case Design, Test Strategy, Test Execution, Bug Reporting, Test Summary Reports
- **Methodologies:** Agile, Scrum, SDLC, STLC, End-to-End Testing, Regression Testing

EDUCATION

NATIONAL COLLEGE OF IRELAND **Dublin, Ireland**
Master of Science in Cyber Security ***Jan 2026 - Jan 2027***
Modules: Network Security & Penetration Testing, Secure Web Development, Security Fundamentals, AI/ML in CyberSecurity, Malware Analysis, Cloud Architecture and Security, Cryptography and Blockchain

UNIVERSITY OF IBADAN **Oyo, Nigeria**
Bachelor of Science in Computer Science ***Feb 2016 - Feb 2020***
Best Graduating Student, Class of 2018/2019

PROFESSIONAL EXPERIENCE

QUIDAX TECHNOLOGIES **Lagos, Nigeria**
Senior Quality Assurance Engineer (Team Lead) ***Jan 2024 - Jan 2026***
Software Quality Assurance Engineer ***Nov 2020 - Jan 2024***

- Promoted to Team Lead to oversee 100% of testing activities for a high-volume crypto exchange, leading test strategy, coordinating testing across multiple products and mentoring a team of 5 QA engineers on automation best practices and code quality
- Designed and established the organization's QA automation strategy, building scalable automation frameworks and defining testing standards that supported the successful delivery of 15+ web and mobile features
- Designed, developed, and maintained automated test suites across web, mobile, and API platforms using Cypress, Appium, Postman, and Cucumber BDD, improving regression coverage and release confidence
- Reduced mobile regression testing cycle time by 30% by championing the automation of the mobile app using Appium and Java, integrated with BrowserStack for parallel testing across 2+ devices
- Achieved 85% automation coverage for core web features by developing a robust framework using Cypress and Cucumber BDD, specifically targeting deposit, withdrawals, swaps and orderbook flows

- Developed and maintained automated API test suites using Postman, integrating automated regression testing into GitHub Actions to provide continuous feedback during software delivery
- Designed and executed performance and load tests using k6 to evaluate API scalability, identify system bottlenecks, and validate application performance under concurrent user loads
- Conducted technical reviews of over 100 automation scripts across six repositories, enforcing coding standards, mentoring engineers, and improving the reliability and maintainability of the automation framework
- Collaborated with cross-functional teams, including software engineers, product managers, and business stakeholders to review requirements, technical designs, and acceptance criteria, translating them into comprehensive test strategies, automated test cases, and edge-case scenarios
- Analyzed automation failures and application defects, documenting 200+ defects in Jira with clear reproducible steps, collaborating with development teams to ensure immediate resolution while preventing business logic flaws and ensuring the accuracy of complex financial processing

ASSURDLY LIMITED **Lagos, Nigeria**
Software Tester Intern ***Jun 2020 - Nov 2020***

- Executed 150+ manual exploratory and regression tests for Fintech platforms (KrediBank, P2Vest), ensuring the stability of critical financial modules before production releases
- Enhanced API reliability by developing 20+ automated test scripts in Postman, verifying response accuracy and data integrity for core banking services
- Designed and executed performance and load tests using k6 to evaluate API scalability, identify performance bottlenecks, and validate system reliability under high-traffic conditions
- Streamlined defect management by documenting 50+ bugs on Trello with clear reproducible steps, reducing the developer feedback loop and accelerating the fixing of functional bugs
- Authored and maintained 100+ technical test cases, creating a structured documentation library that improved test coverage for both web and mobile applications

CERTIFICATIONS

- ISTQB Certified Tester - Foundation Level (CTFL)
- ISTQB Certified Tester - Advanced Level Test Management (CTAL-TM)

PROFESSIONAL TRAINING AND COURSES

- **Testify (Test Code Camp 2.0)** - Manual and Automation Testing
- **Test Automation University** - **(1)**Scaling Tests with Docker, **(2)**Continuous Integration with Jenkins, **(3)**Selenium WebDriver with Java, **(4)**Introduction to TestNG, **(5)**Tools and Techniques for Performance and Load Testing, **(6)**Exploring Service APIs Through Test Automation, **(7)**Appium with Java
- **AI Course by Vanderbilt University / Coursera** - **(1)**OpenAI GPTs: Creating Your Own Custom AI Assistants, **(2)**Agentic AI and AI Agents: A Primer for Leaders, **(3)**Prompt Engineering for ChatGPT

HOBBIES AND INTERESTS

EVENT PLANNER - NCI FILM AND PHOTOGRAPHY SOCIETY **Jan 2026 - Date**

- Led the planning and execution of the Film and Photo Society's Valentine's Karaoke Night, overseeing venue logistics, creating promotional graphics via Canva, and managing registration through Microsoft Forms to ensure a successful event for 30+ attendees

DIRECTOR OF EVENTS - ASSOCIATION OF NIGERIA SOFTWARE TESTERS(ANST) **Apr 2021 - Apr 2024**

- Planned the end to end execution of 10+ professional events, including the Annual Conference and a 150+ guest Award Ceremony, while delivering a series of technical webinars and online training sessions to enhance member engagement

TRAVELLING

- Avid world traveler currently pursuing a "30 before 30" challenge with a goal to visit 30 countries before age 30. Over the last 4 years, I have visited 19 countries across 3 continents, namely: Ghana, Kenya, Senegal, Gambia, Benin, France, Portugal, Italy, Spain, Vatican City, Qatar, Malaysia, Thailand, Indonesia, Singapore, Ireland, UK, Germany and Belgium
